

An aerial night photograph of a tropical island, likely in the Pacific. The island is illuminated with warm yellow and orange lights, highlighting its rugged terrain and a central valley. A large bay or lagoon is visible on the left side of the island, reflecting the ambient light. The surrounding ocean is dark, with some distant lights visible on the horizon.

UNDCF's First Annual Investement Forum

Capital Pathways for Frontier Economies

22 septembre 2022, New York

CLIMATE CHANGE

- Drinking water
 - Agroforestry
 - Renewable Energy
 - Agricultural Biomass (ethanol)
- 

FOOD SECURITY

- Extension of Cultivated Areas
- Resilient Agriculture
- Irrigation Networks
- Agricultural Emergence Zone
