

Building resilience of vulnerable communities and countries in LDCs and SIDS

3 Dec 2023

9:30 a.m. - 10:30 a.m.

UNCDF Pavilion (Blue Zone)

Sustainable
Markets
Initiative

Impact Capital
for Development

Background

This session will explore how a market systems approach, working with local private sector insurers, FinTech/InsurTech providers, other financial service providers, aggregators such as agriculture/fisheries cooperatives and women's associations to pilot, test and scale pre-arranged financing solutions like parametric microinsurance can support LDCs, SIDS and climate vulnerable counties to cope after a major climate related catastrophe.

Moderator

Sid Miller

Board Advisor
SEADRIF Insurance Company
